1. The following is an examiner's statement of reasons for allowance: The rejection of claim 16 under 35 USC 112 2nd paragraph is hereby withdrawn, as "aromatic like group" is well known to organic chemist. The closest prior art is Chen et al(Organic Lett, 2002). The difference between the reference and herein claimed compounds is carboxylic acid derivative in the reference as against thiazoline sulfoxide derivatives claimed in herein(see claims 13-15). Another reference which is pertinent to the instant claims is Carvalho et al(Inorganic Chem, 1994) which on page 6271, structures A and B, and Table 1, on page 6272, 1st compounds are structurally similar to claimed herein, but are not the same structure as claimed herein. There is no motivation to arrive at the claimed compounds using the prior art references. Hence instant claims are patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
